- Jenkins-CI/CD
- GitLab

### Key Courses Taken

- ISTQB Foundation Level
- ITB - Selenium Testing -Udemy
- Postman API Testing – Udemy

### Languages

- English
- Telugu
- Hindi

### Professional Summary

As an Automation Test Analyst with over 2.5 years of experience, I specialize in creating and executing automated tests for web applications using Java and Selenium. I am proficient in various testing levels and possess a deep understanding of Agile development methodologies. My expertise is dedicated to ensuring the quality and reliability of software products.

### Experience

#### July'2022 - Present

##### Tata Consultancy Services | Hyderabad Test Automation Analyst

As a software test automation engineer, Proficient in utilizing Selenium for the creation and development of automated web application test cases. Managed defect reporting through JIRA and maintained collaborative relationships with development and QA teams to uphold software quality and reliability. Skilled in developing and managing Java-based test automation frameworks and comprehensive test documentation.

##### Project 1: Verizon Vendor Portal Mobile (VPM) application (Telecom Domain)

- Specialized in testing the Verizon Vendor Portal Mobile (VPM) application within the Telecom domain. Ensured a seamless installation process for customer-ordered Wi-Fi products through rigorous testing and quality assurance.

##### Project 2: Service Line Express (SLX) internal banking application

- Led testing and quality assurance for NatWest's internal banking application, Service Line Express (SLX), ensuring compliance with industry regulations. Collaborated cross-functionally to enhance the system's efficiency, enabling streamlined service requests, authorizations, and approvals. Maintained detailed test documentation and upheld a strong commitment to quality assurance, contributing to the application's reliability in the banking and insurance domain.

#### June'2021 - July'2022

##### IndiaMART InterMESH Ltd | Noida Test Engineer

As a Test Engineer, I have Conducted comprehensive manual and automated testing for web and mobile applications and reported defects through bug-tracking tools. Collaborated seamlessly with both development and QA teams. Actively engaged in sprint planning, daily stand-up meetings, and retrospectives, and maintained thorough test documentation. My unwavering commitment to continuous testing and quality assurance consistently ensured the delivery of high-quality software products.

##### Project : Message Centers on IndiaMART's E-commerce platform

- Contributed to the development of Message Centers on IndiaMART's E-commerce platform, enabling seamless buyer-seller communication. Conducted rigorous end-to-end testing, ensuring bug-free, efficient user experiences. Strengthened E-commerce functionality and user satisfaction.

### Education

- **Bachelor Of Technology** - Mechanical Engineering  
Aditya College Of Engineering | Kakinada, A.P.

2015-2019
